ATELIER PROFILE & CORPORATE HERITAGE

ABOUT OUR ATELIER & PARENT ENTITY

"Integrity in Craft, Reverence in Stone"

「言信行直，众望所归」 · Founded 2008, Guangdong, China

Founded in 2008 in Guangdong, China, Foshan Xinwang Interior Decoration Co., Ltd. established Stone Art as our domestic hallmark for bespoke marble marquetry, followed by Art Inlay (https://artinlay.com/) to work directly with international private clients, architects, and interior designers.

By partnering directly with clients rather than intermediaries, we offer an uncompromised level of personal attention, craftsmanship, and accountability across luxury estates, private palaces, and world-class commercial developments throughout Europe, North America, the Middle East, and Asia.

"Single-Atelier Fabrication & Engineering"

「独具匠心 · 追求卓越」 · Pioneers in Architectural Waterjet Marquetry

From the very beginning, our mission has been to push the boundaries of architectural stone inlay. Every commission is created entirely within our dedicated Jiangmen atelier, where 1:1 CAD engineering, 5-axis waterjet machining calibrated to ±0.1mm tolerances, hand-jointing at the artisan bench, and complete pre-shipment dry assembly take place under one roof.

This integrated approach guarantees flawless grain matching, hairline 0.3–0.5mm seams, and complete peace of mind for prestigious residential estates, royal residences, and boutique hospitality projects in over forty countries.

ATELIER LEADERSHIP & CRAFTSMANSHIP

FOUNDER & MASTER CRAFTSMAN

WANG FEI (BRUCE WANG)

石匠花者创始人 · 石材艺术拼花界领头羊

FOUNDER, ATELIER DIRECTOR & MASTER CRAFTSMAN

"Inspiration flows as waterjet cuts; artistry awakens the stone."

"才思泉涌水为刀，妙笔生花石开道"

For more than fifteen uninterrupted years, Master Wang Fei has devoted his life to pioneering the art of architectural marble marquetry and pietre dure. His pursuit of exceptional geological specimens has taken him to quarries across Italy, Greece, Turkey, and beyond.

As the preeminent master of architectural stone marquetry from China, Wang Fei has been commissioned by African industrialists, Middle Eastern royal families, and European private collectors to realize landmark heirloom commissions. His signature aesthetic harmonizes grand classical symmetry with fluid contemporary vitality.

UNITED NATIONS RECOGNITION

CONTEMPORARY CHINESE DESIGN ACHIEVEMENT

In 2015, Art Inlay's landmark international project—the Bangladesh CM Luxury Estate—was selected for the prestigious Exhibition of Contemporary Chinese Artistic & Creative Design Achievements at the United Nations Headquarters in New York.

As an official cultural representative, Founder Wang Fei was invited to present his work at the UN Headquarters, celebrating how time-honored lapidary traditions merge with modern architectural engineering.

LANDMARK INTERNATIONAL COMMISSIONS

DIPLOMATIC & PRESTIGE RESIDENCES

Building upon our recognition at the United Nations, our atelier has executed flagship commissions worldwide, including the palatial Omer Private Residence in Tanzania and the Kuwait National Commercial Center.

From raw marble quarry selection to 5-axis waterjet precision and artisan bench-easing, Art Inlay delivers one-of-a-kind architectural heirlooms tailored to the world's most distinguished estates.

FLORENTINE PIETRE DURE

RARE MINERALS INLAID INTO ARCHITECTURAL MARBLE

Our atelier specializes in bespoke Florentine Pietre Dure hardstone inlay, integrating rare semi-precious minerals—including natural jade, banded agate, quartz crystal, lapis lazuli, malachite, and translucent onyx—into natural architectural marble.

These precious elements are crafted into magnificent feature walls, grand entrance medallions, and custom dining and boardroom centerpieces.

TURNKEY ATELIER EXECUTION

FROM RAW GEMSTONE SELECTION TO SEAMLESS INSTALLATION

Guided by the master craftsman's creed: 'Water cuts with precision; artistry awakens the stone.'

From curating raw gemstone slabs to high-precision 5-axis waterjet cutting and hand-finishing at the bench, Art Inlay delivers one-of-a-kind heirloom creations tailored to the world's most distinguished private residences.

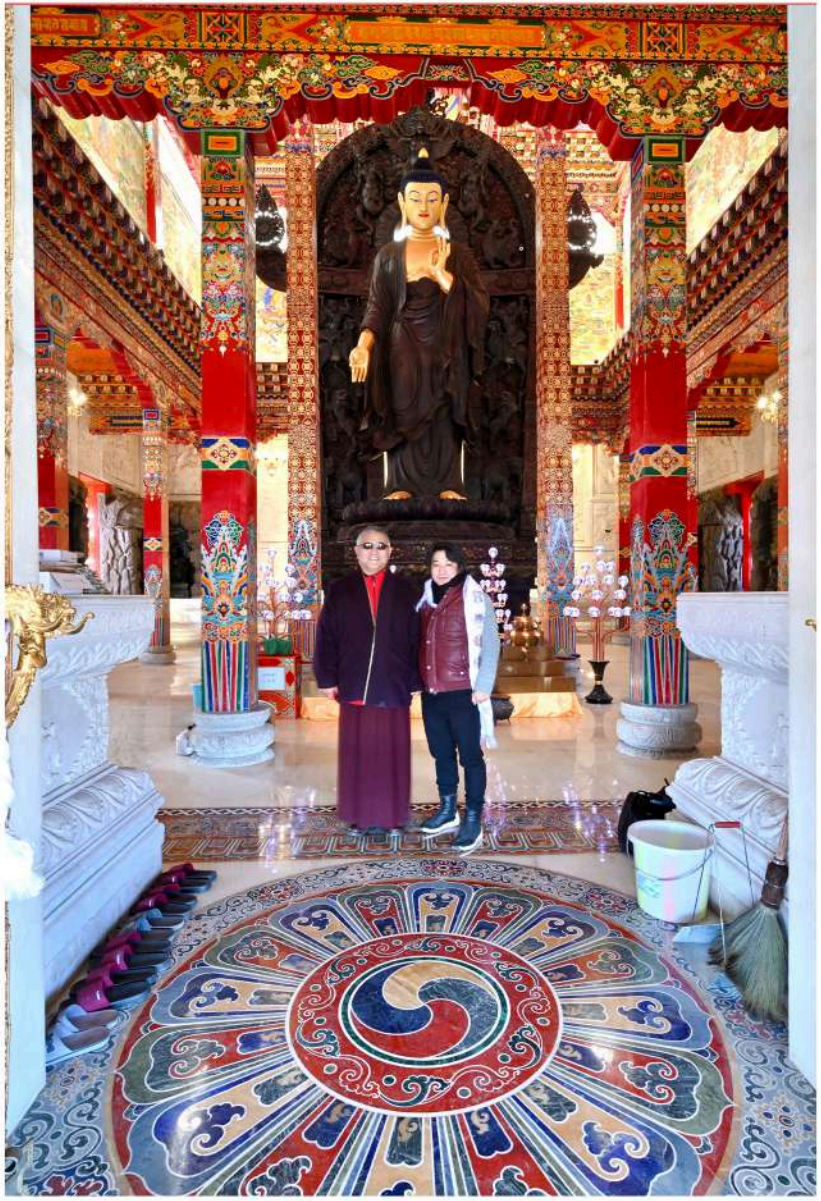

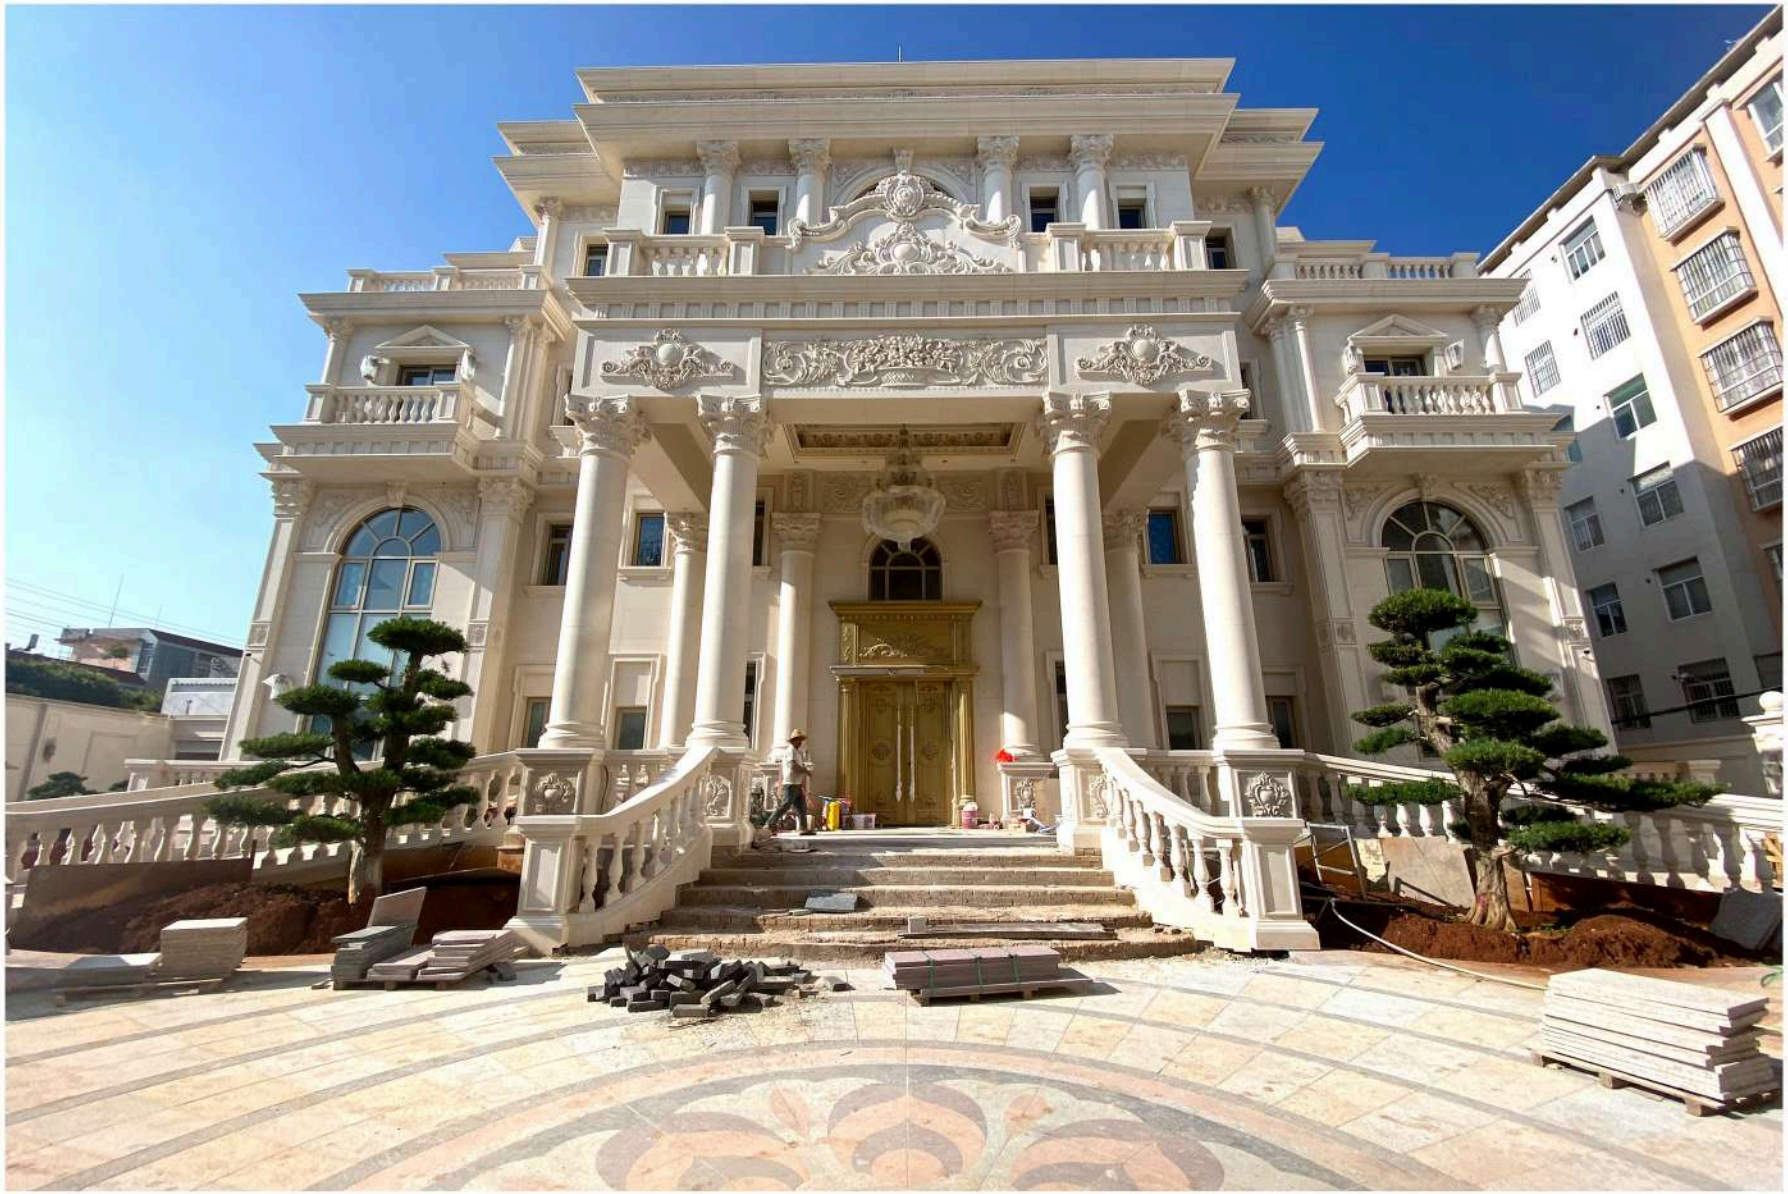

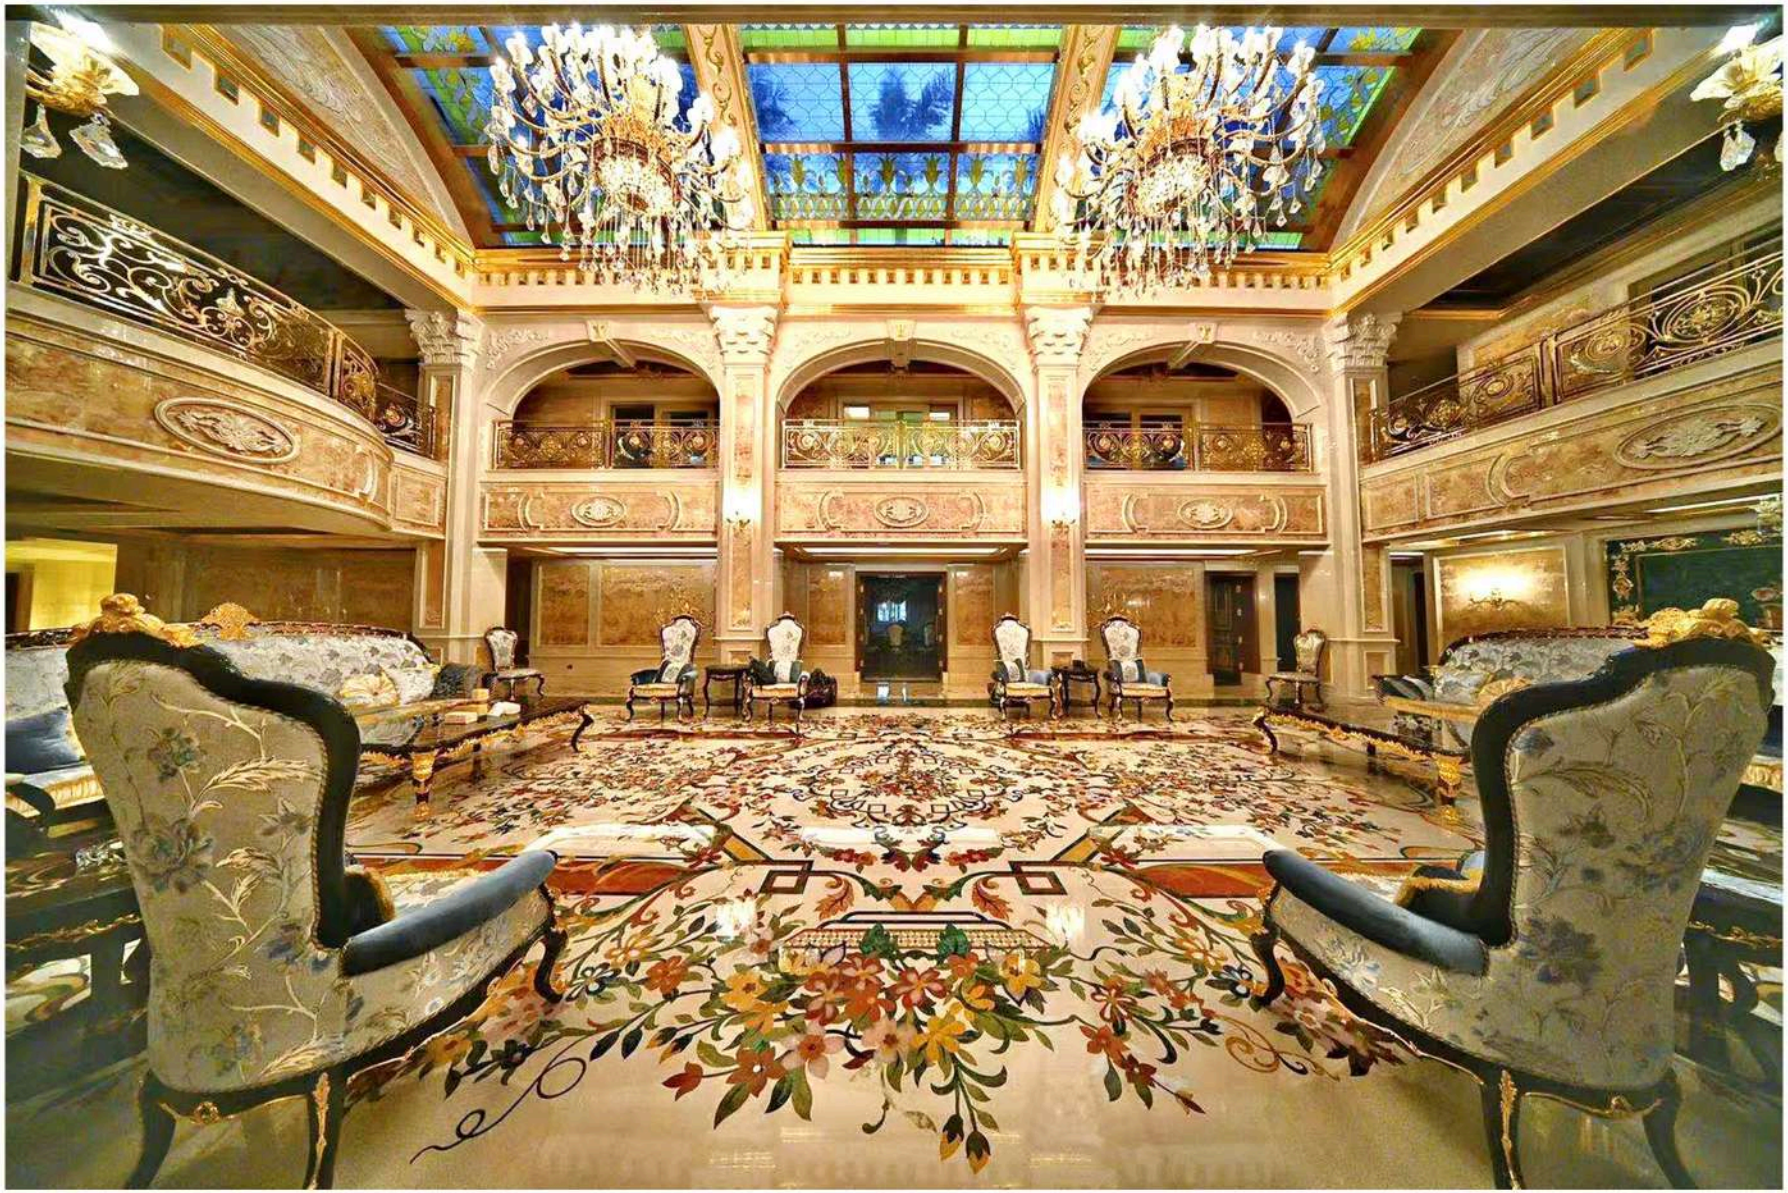

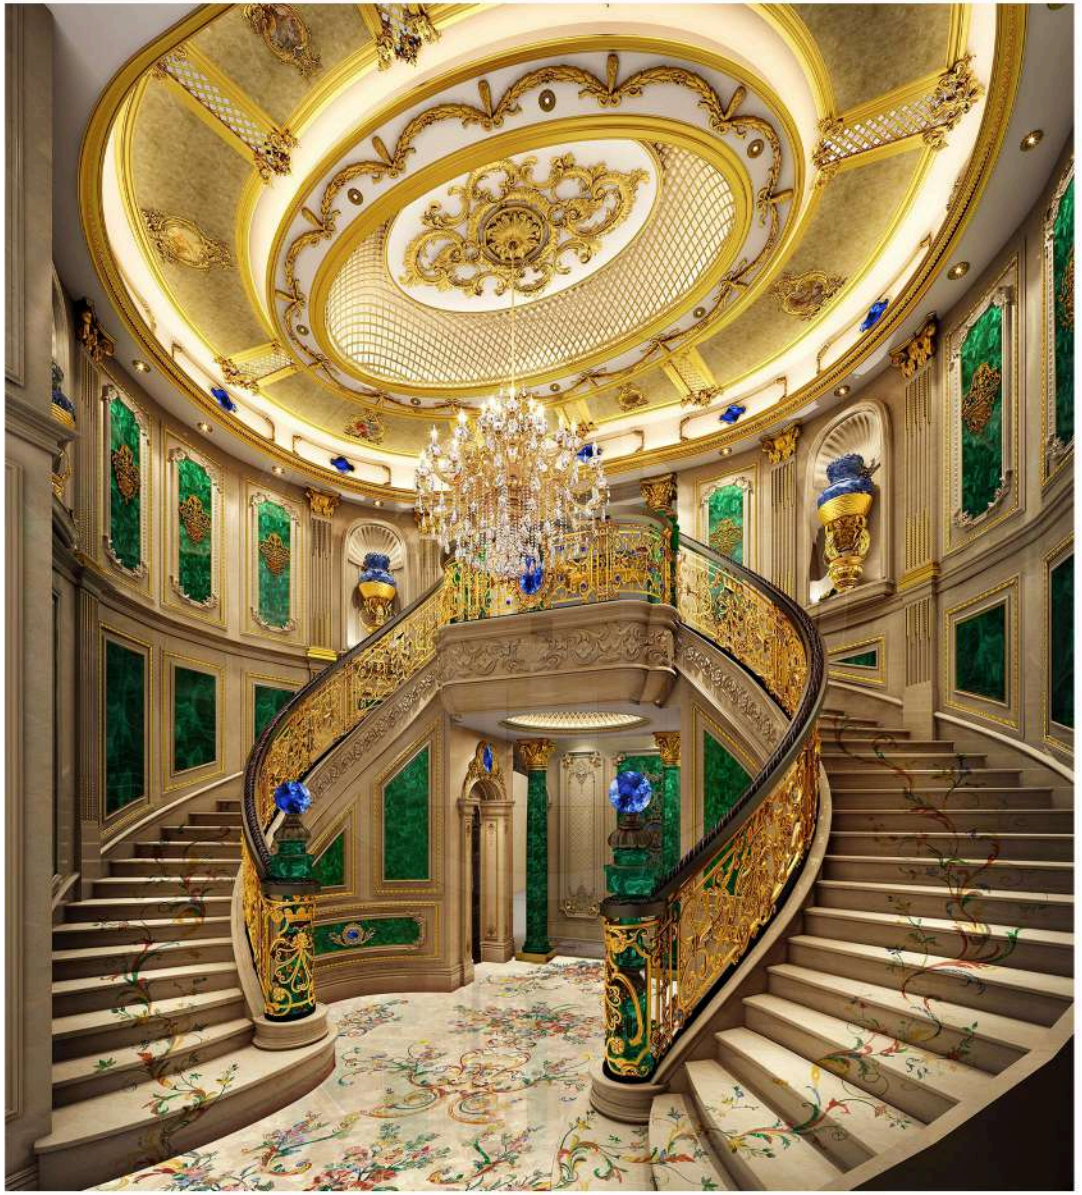

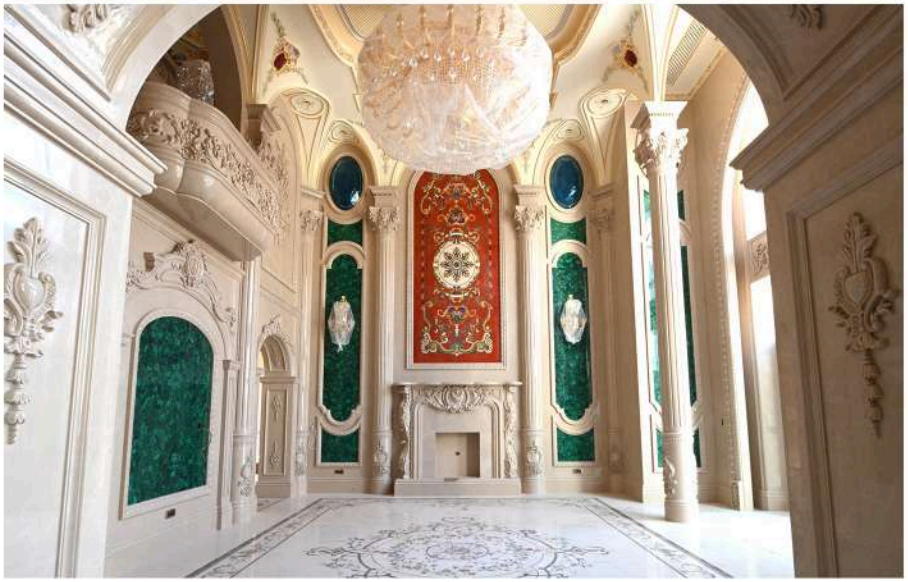

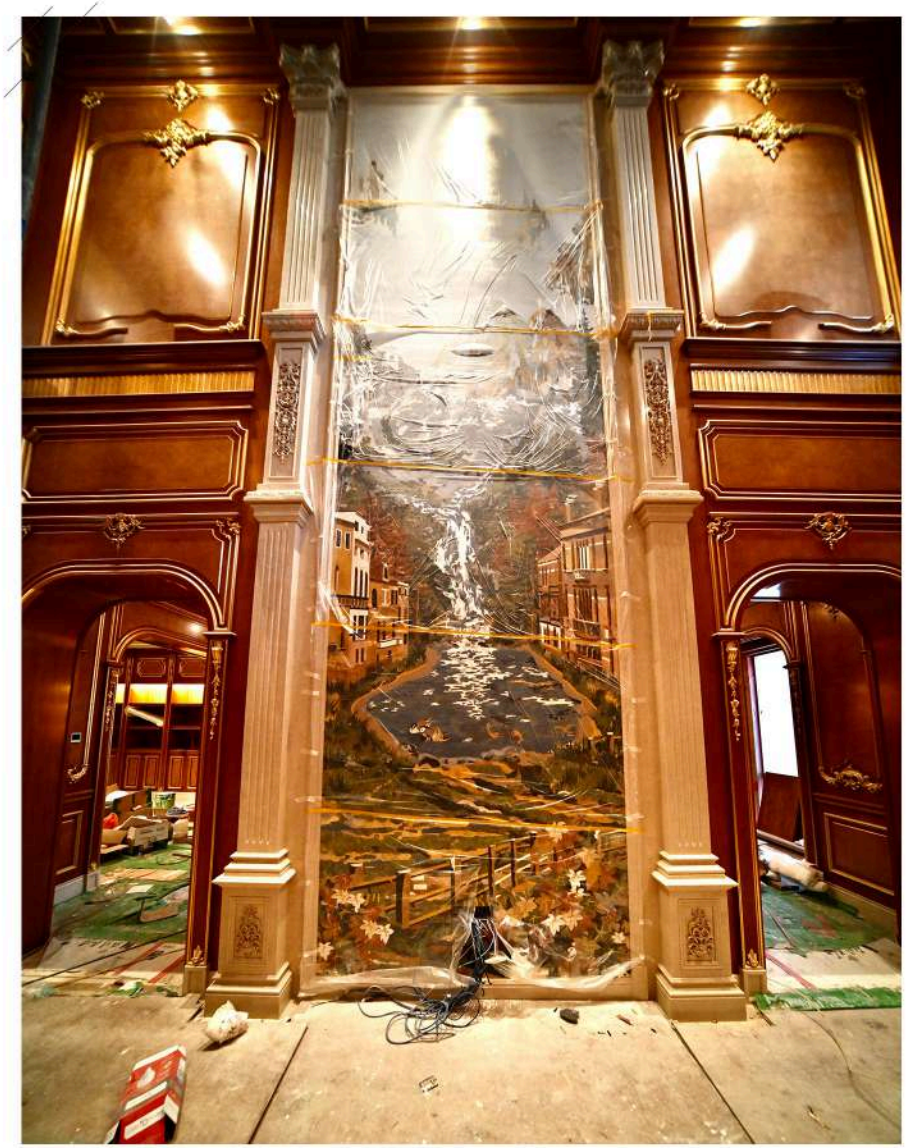

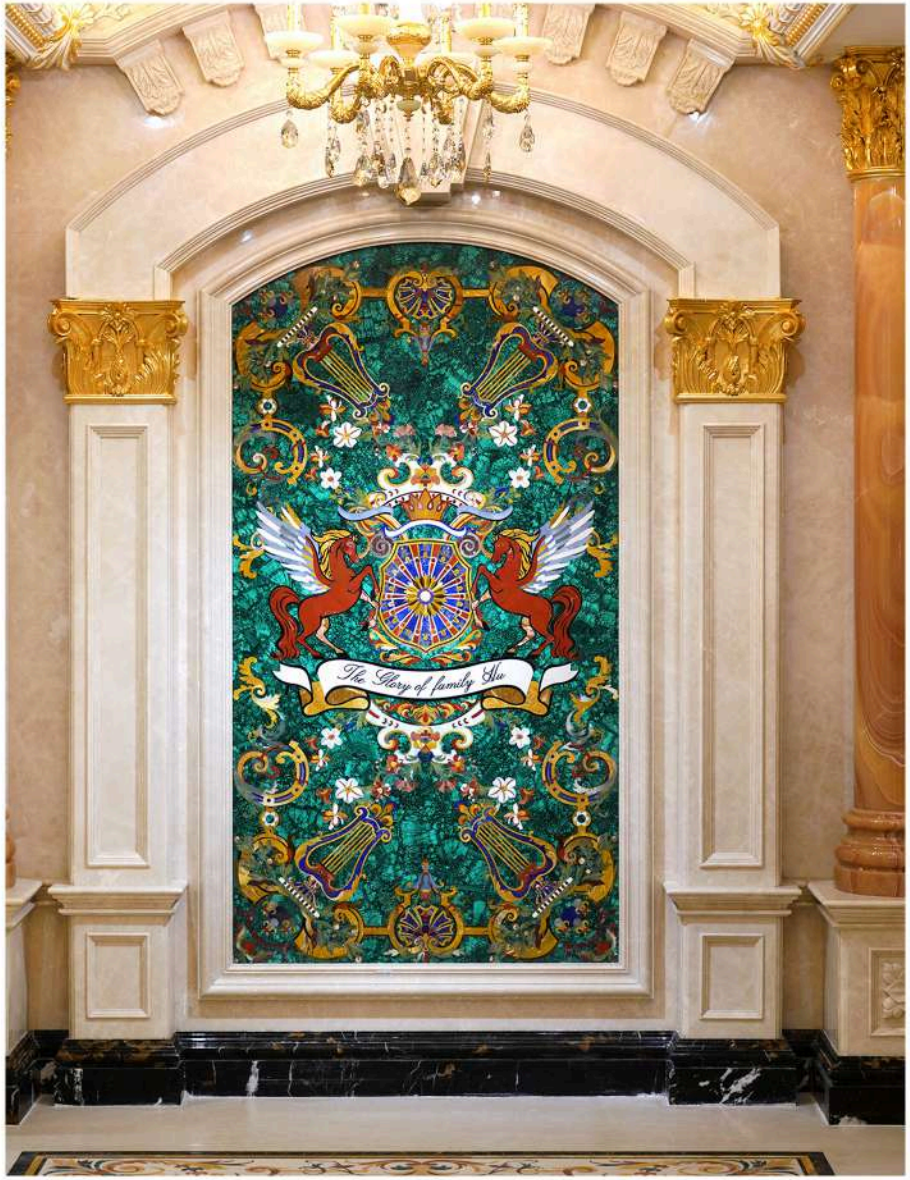

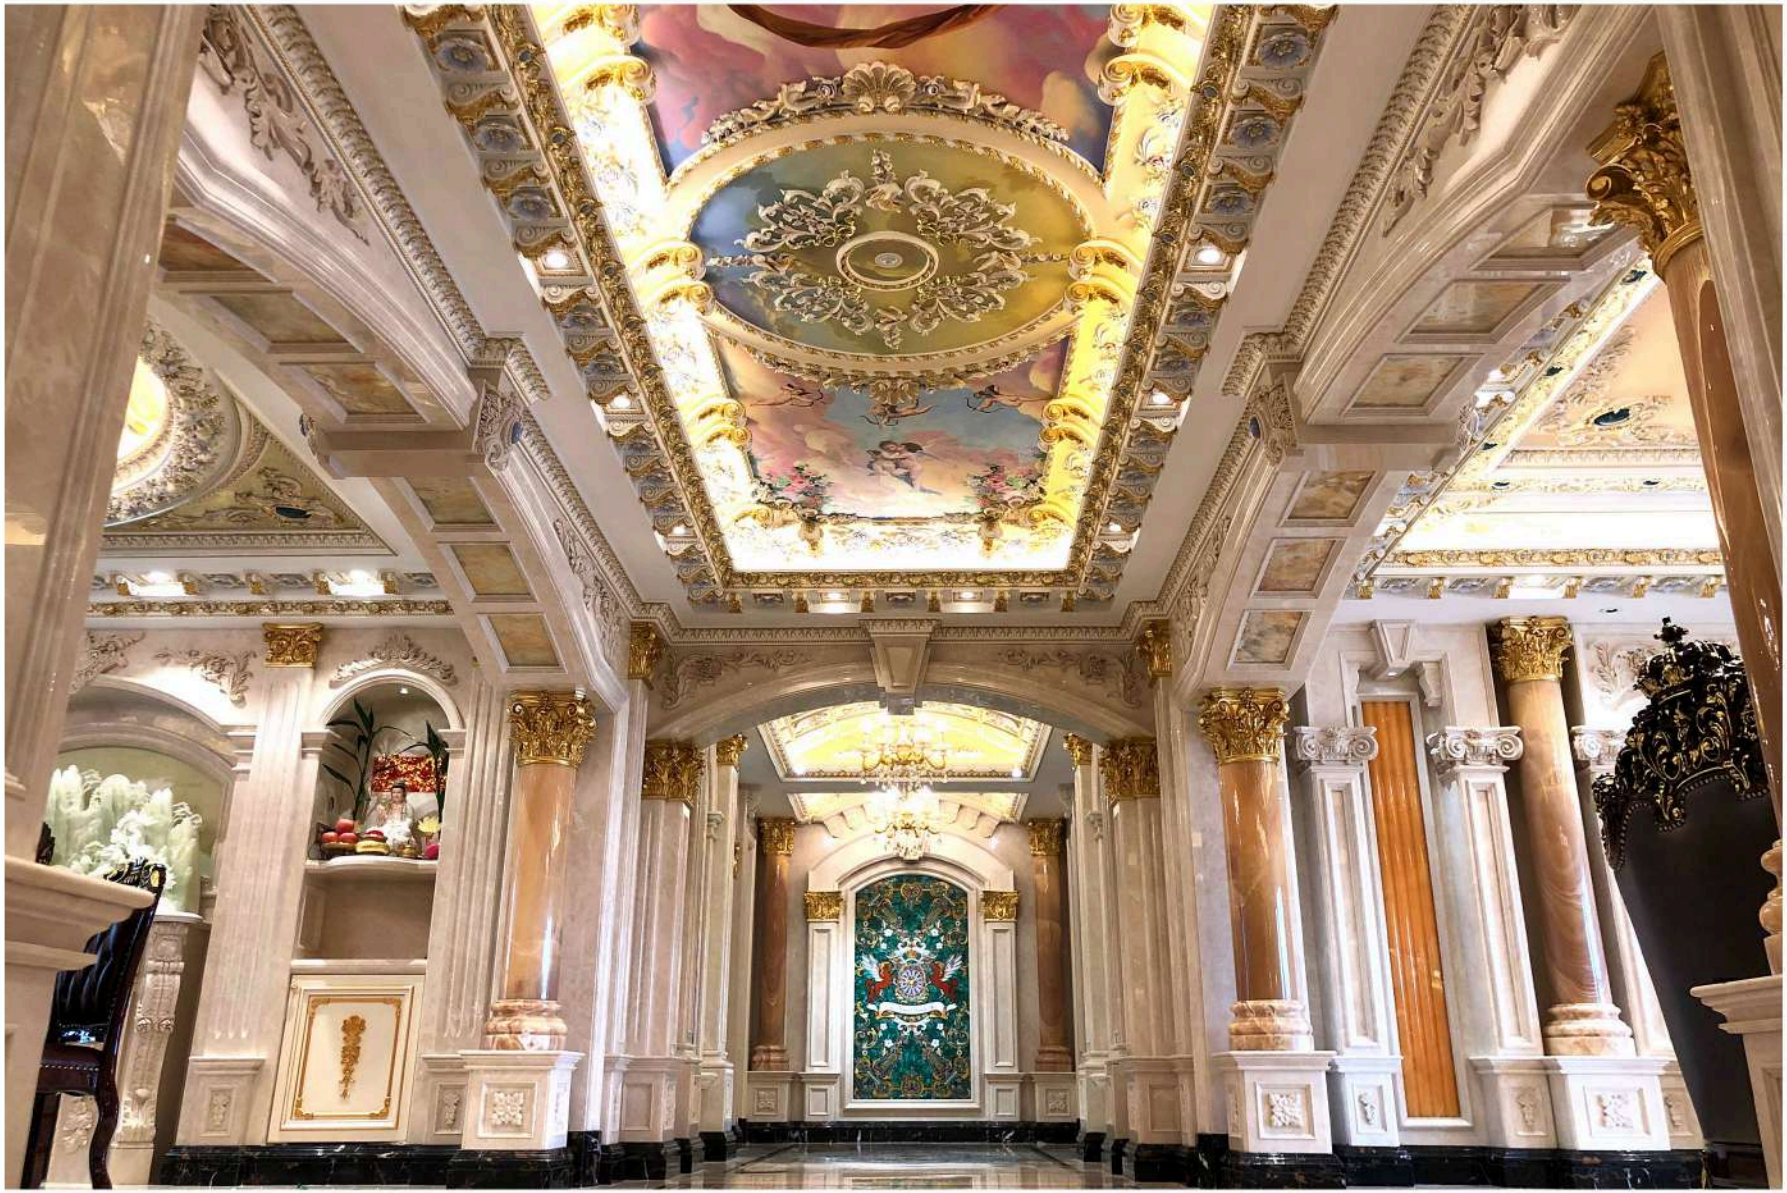

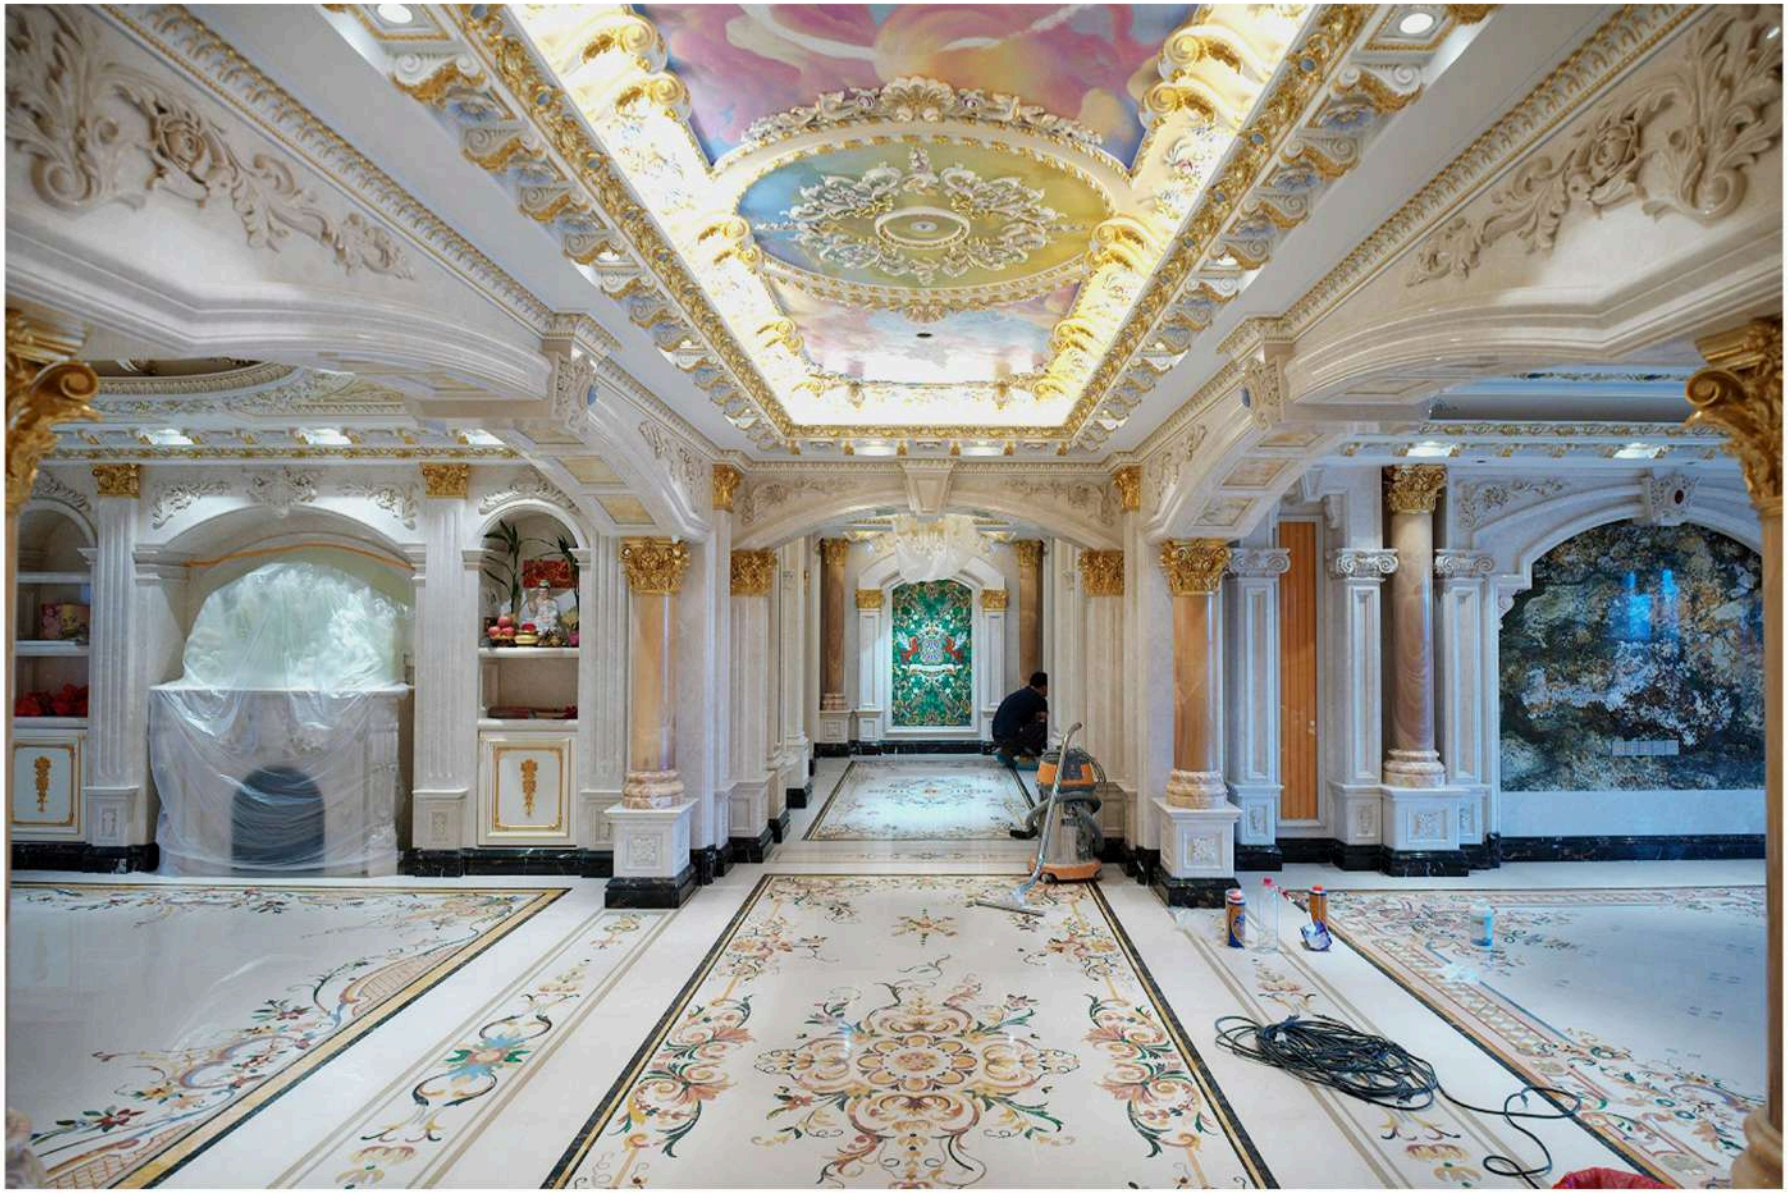

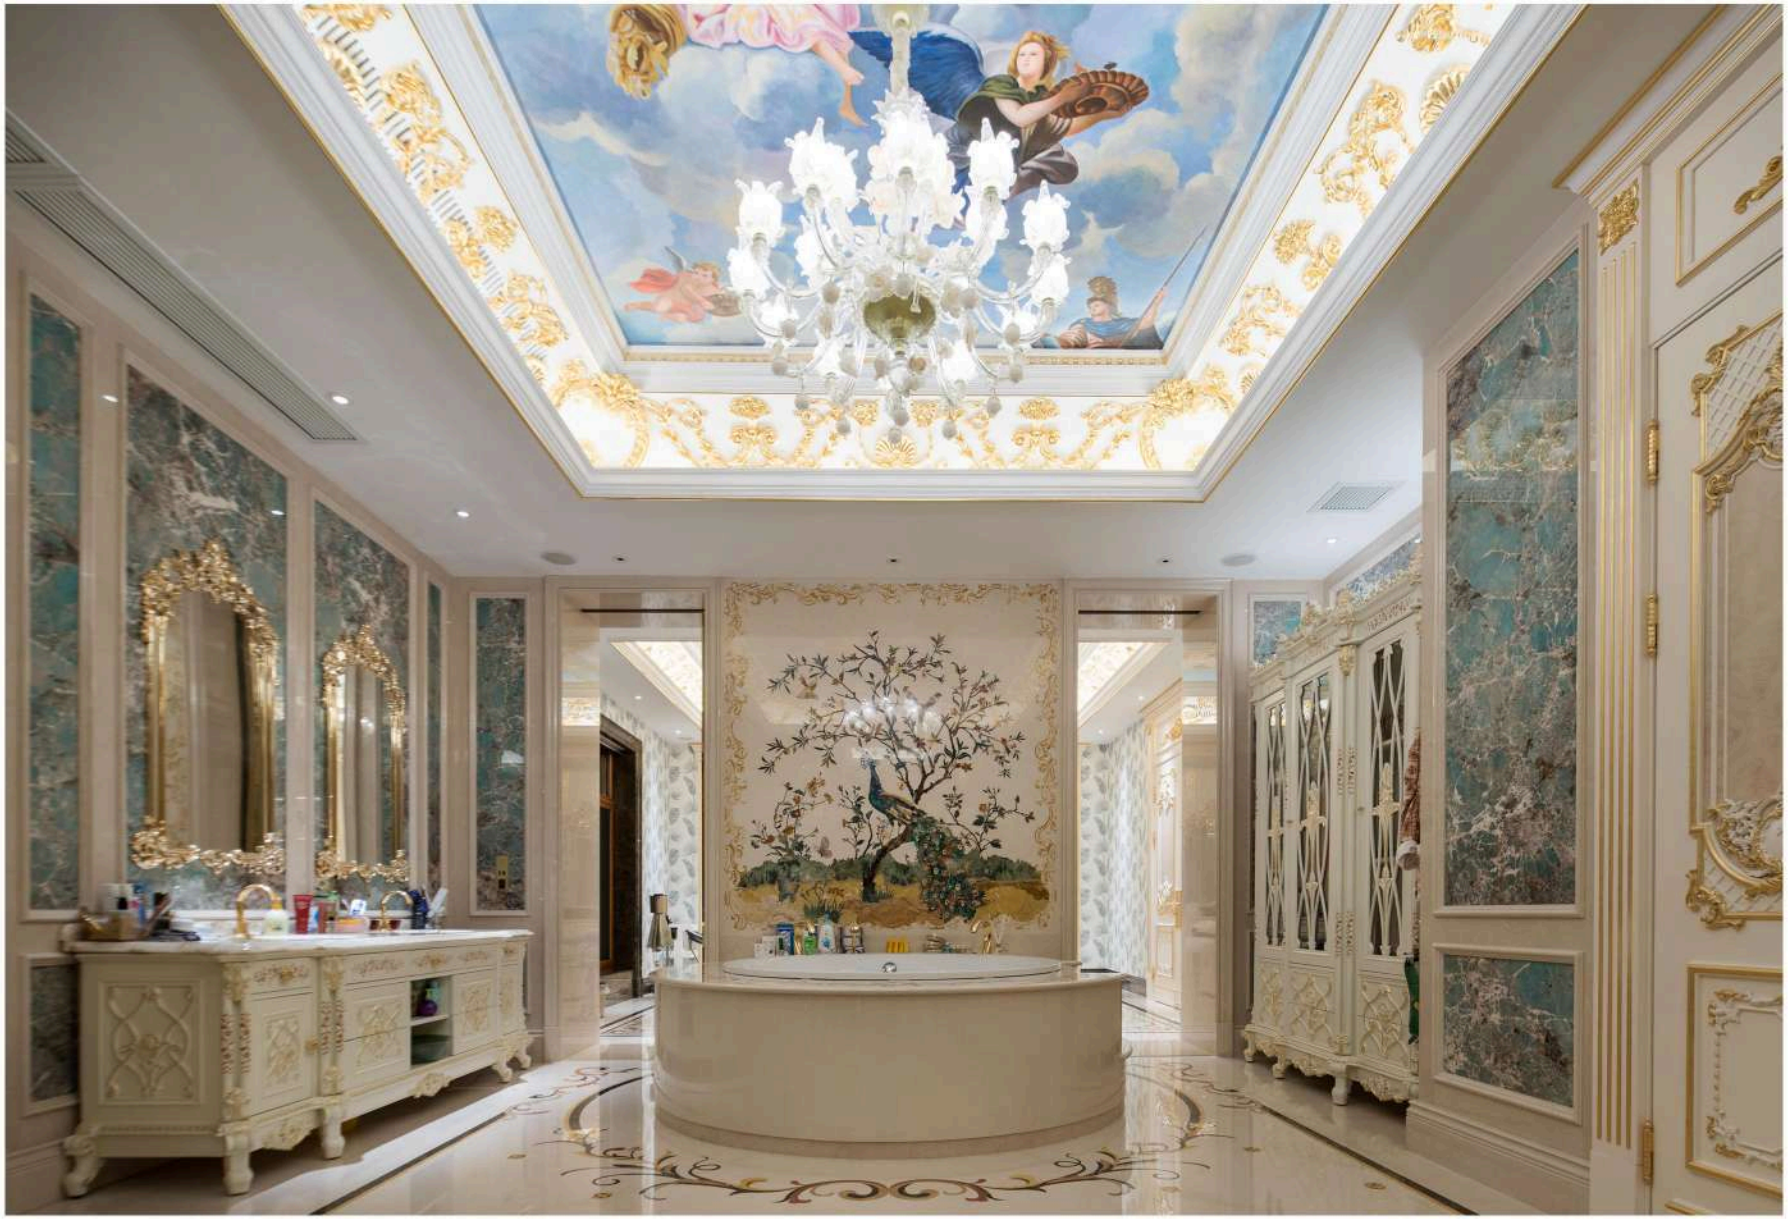

The Glory of family Hu

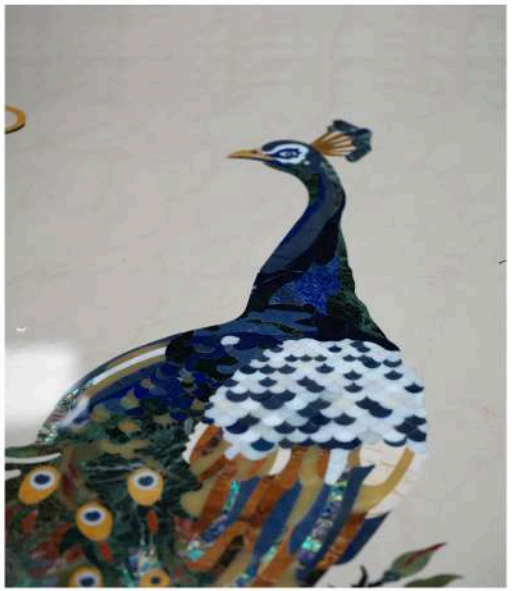

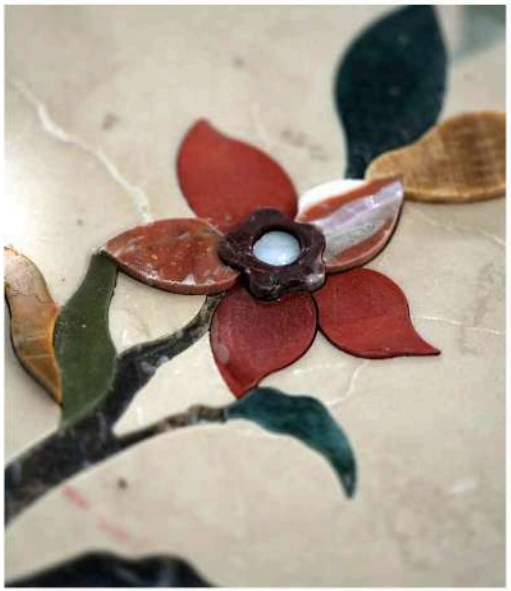

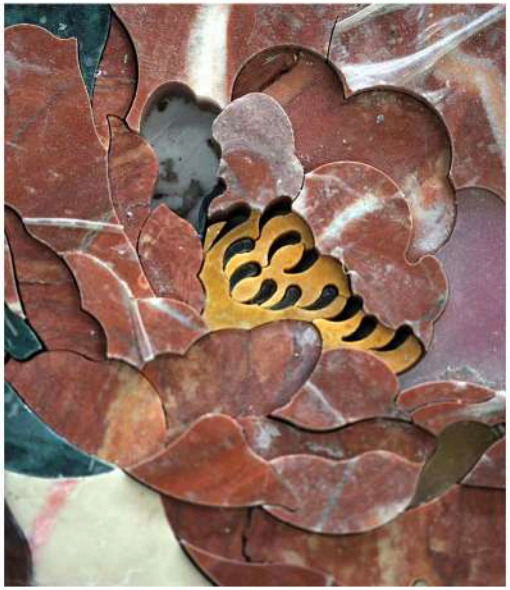

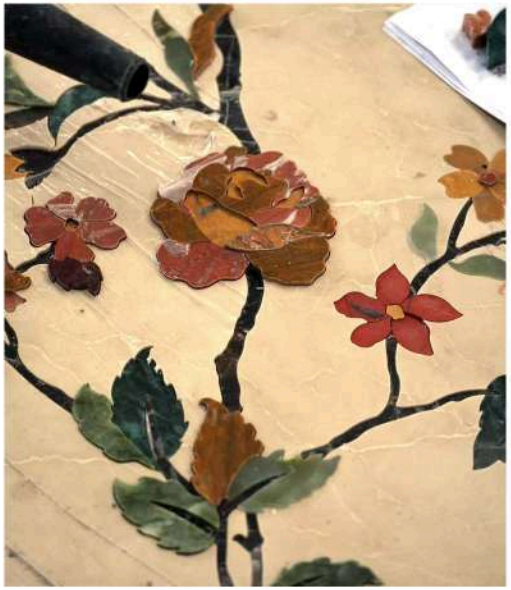

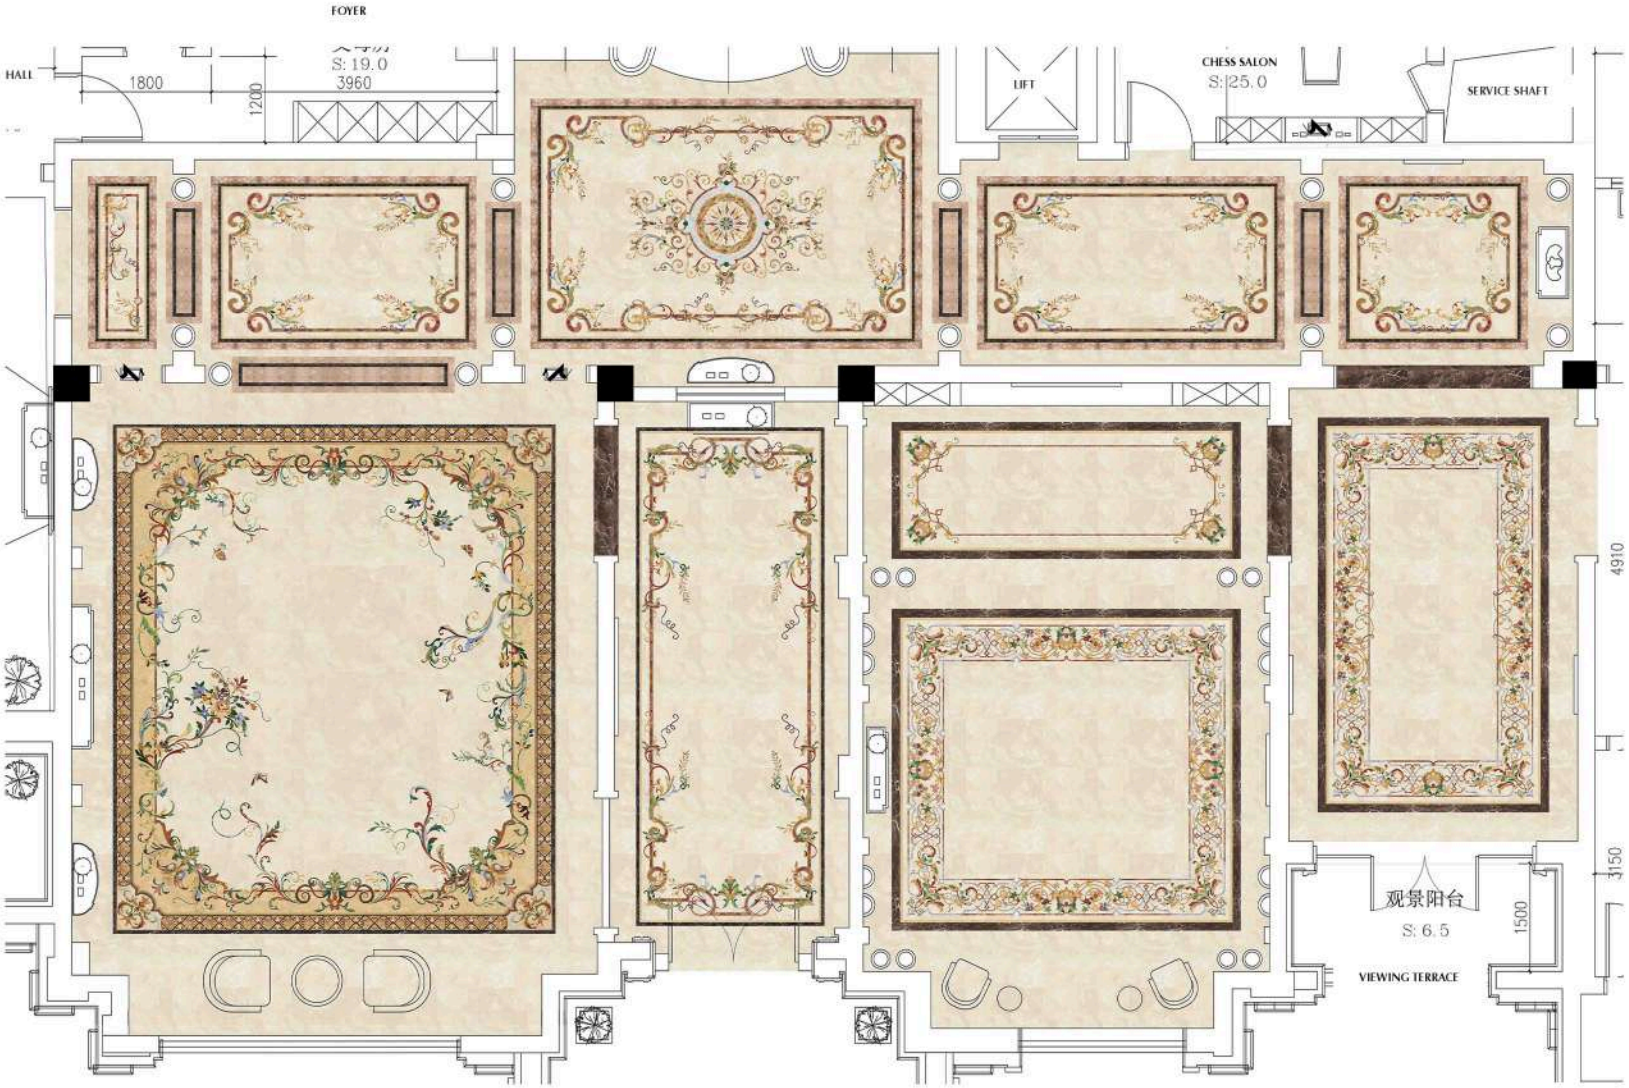

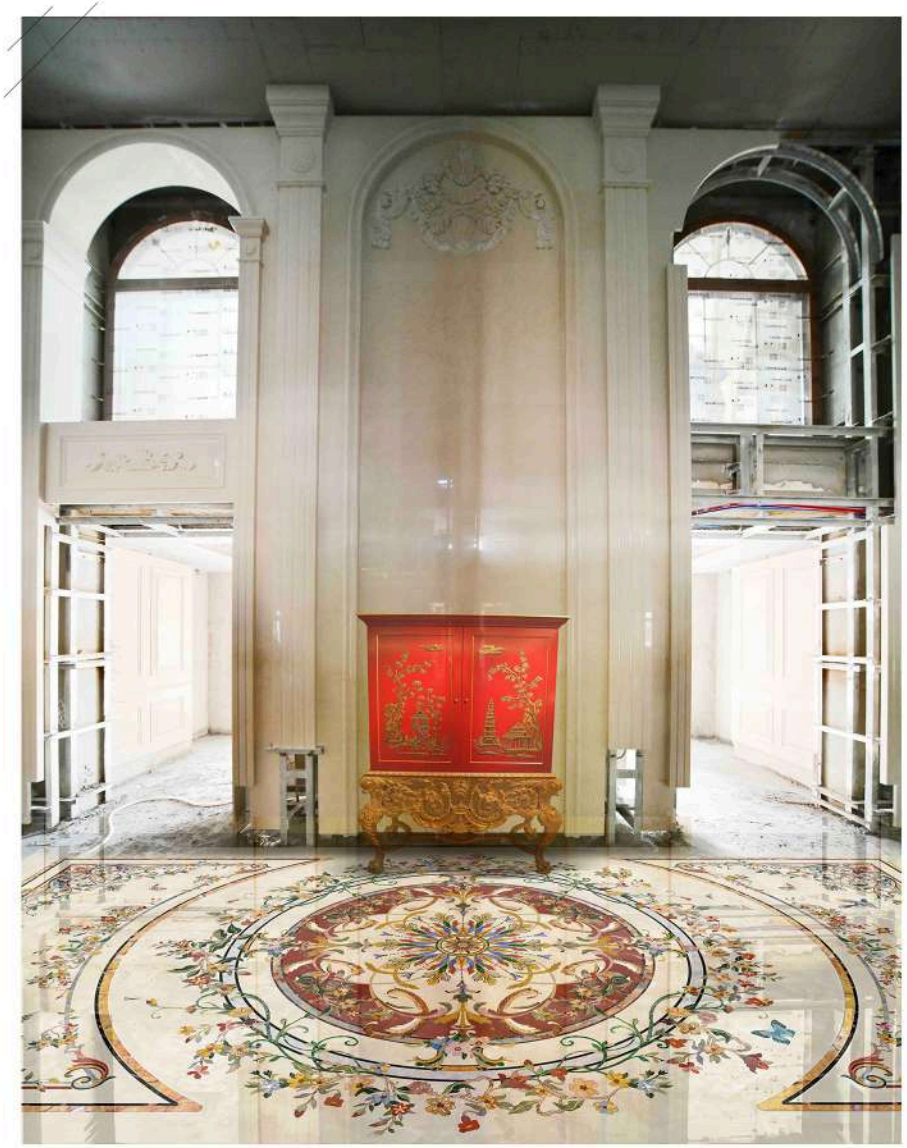

GROUND FLOOR LAYOUT (SCHEME 03) DWG: A-04

PROJECT: Palatial Private Residence	MATERIAL: Natural Marble & Waterjet Marquetry	APPLICATION: Grand Salon Flooring	STATUS: Approved for Cutting (±0.1mm)

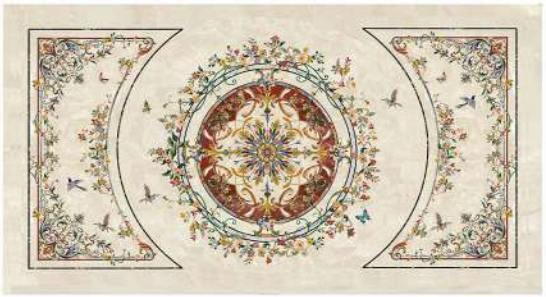

ARCHITECTURAL SPECIFICATIONS & PRODUCTION CONTROLS:
1. Material Authenticity: Natural marble exhibits inherent geological veining; physical control samples approved by the atelier govern production.
2. Modular Jointing: Large formats exceeding 1.2m incorporate engineered 0.3–0.5mm hairline relief seams along design axes for seamless on-site laying.
3. Micro-Fissure Integrity: Traditional natural resin bonding and precision structural back-netting are applied to preserve stone longevity.

GROUND FLOOR MARQUETRY LAYOUT PLAN

DESIGN PHILOSOPHY & ARTISTIC REFLECTIONS

THE SPIRIT OF INCLUSIVE HARMONY

「有容乃大」 · *The Spirit of Inclusive Harmony*

In decorative stone, one often fixates on the narrow symbolism of a single bloom or solitary leaf. Yet this isolated pursuit captures only a fragment, losing sight of the grand architectural setting.

Through decades of hand-crafting stone for royal residences worldwide, one learns a deeper truth: true grandeur is born of vast inclusivity.

A solitary flower is charming, yet the true spirit of spring is the harmony of hundreds of blooms unfolding in unison. Our compositions do not force rigid, isolated motifs. Rather, they evoke a living sanctuary—gentle swaying grasses, radiant blossoms, songbirds in joyful melody, and butterflies dancing in light.

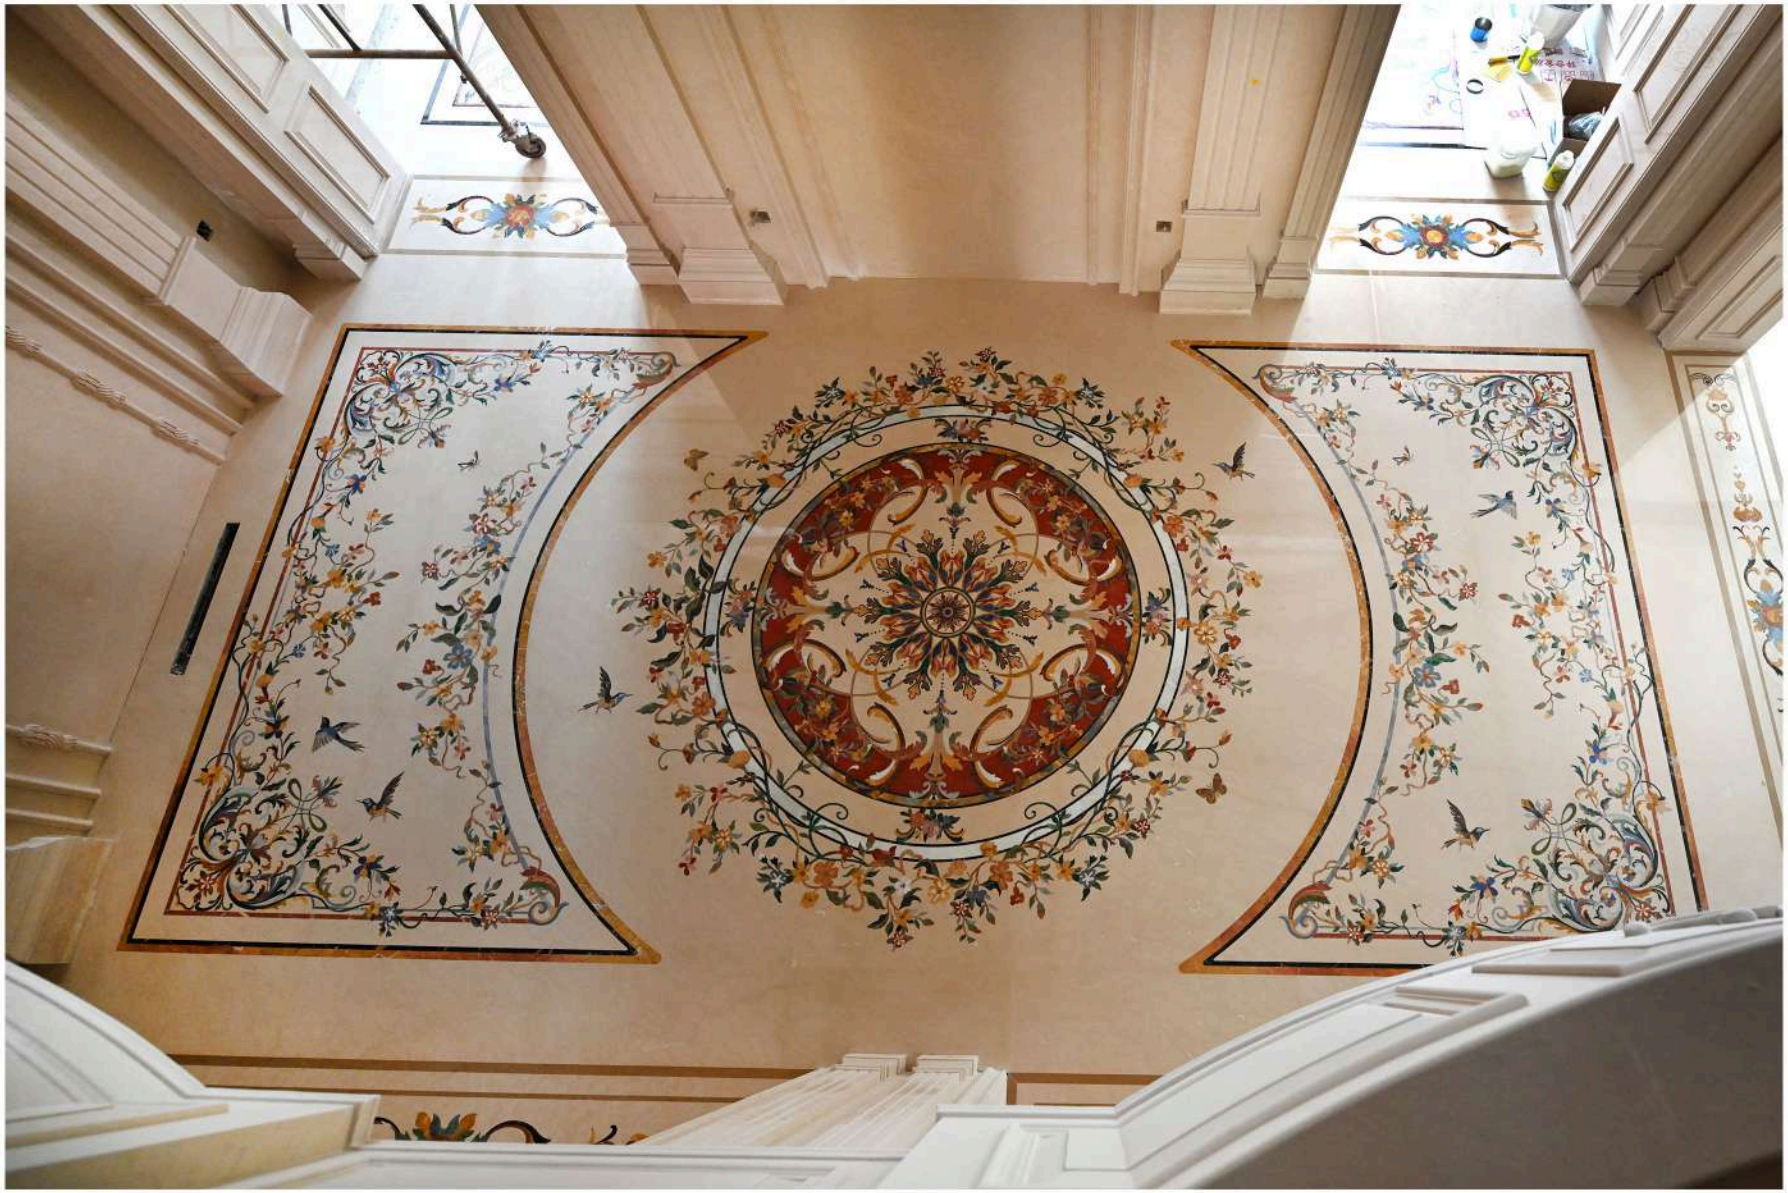

We craft not merely a decorative marble floor, but an enduring atmosphere of nobility, tranquility, and vital warmth that elevates the living space.
